CIRCULAR- LETTER

The Minister of Finance

TO

The Director General of Budget
(To the attention of Regional Finance Controlers)

Within the framework of the on-going audit of the floating debt, the inventory phase of physical files having come to an end, a claims confirmation operation for files deemed auditable, launched on 17th October 2022, at Yaoundé, is underway. An appropriate system has been put in place at the Ministry of Finance, Bloc A, to accommodate the creditors concerned until 9 December 2022 at 3 p.m., the deadline set for the imperative submission of the documents required for this purpose.

In order to strengthen the communication which should guarantee a wide dissemination of information and ensure maximum participation of the creditors concerned, you will do well to take all the necessary steps in your respective financial jurisdictions, to inform the service providers wishing to find out about the status of their files, through the provision of positions for consulting the lists, including up to the level of the Divisional Finance Controls as far as possible. In this sense, the lists of creditors called upon to confirm their claims as well as those of the files definitively rejected, are available and will be sent to you by a team dispatched for this purpose, as soon as this circular letter is signed.

I attach utmost importance to the scrupulous and prompt implementation of these instructions./-

P.J.: 01
